Based on Abdullah’s forthcoming book

We are living through an unprecedented period of rapid and pervasive transition. Every aspect of our reality is shifting, from how we work and play, where we educate our children and care for the health and wellbeing of ourselves, our families and our communities.

Where does this leave the future of strong and dominant sectors such as business and finance, retail, hospitality, the automotive sector, and financial services?

Can we evolve them and other sectors for a new reality?
Do we even have the wherewithal to manage the future?
How do we start the process of passing the baton forward?
Can we manage the world we live in and take proactive steps to play a part in it?
Do we have the tools to shift our business strategies?
Are we poised to take advantage of the opportunities on offer?
Can we shake up our fear of the unknown and open our minds to exciting new possibilities?

Transport yourself into the future with global futurist, strategist, speaker, and disruptor Abdullah Verachia. We will look through the transitional skills taking place at every level of society and how these will reshape the world as we know it. Embrace a new reality, new cross-border opportunities and new avenues for personal and business growth.

Unlock key insights on the pages of Disruption Amplified that will guide your own rethinking of the exciting and transformative times, and step boldly into a new tomorrow.
